PowerMic Mobile Setup

Installation

- Download the application: PowerMic Mobile
    - iPhone Users (requires iPhone 4s and iOS 8.0 or greater)
    - Android Users (requires Android 4.3 or greater)
- Once the download completes, proceed to configuring PowerMic Mobile
- Accept the End User License Agreement if it appears
- Do not open the application at this point. Continue the configuration process (see below)

Configuration

- Point your camera at the QR Code below
- Click the device specific link (Android or iPhone)
- When prompted for an application to open the link, select PowerMic Mobile
- Accept the End User License Agreement
- Accept "Allow microphone access" on the phone if prompted
- PowerMic Mobile will be configured and ready to use
